I. GENERAL INFORMATION

Introduction

The Office of Victim Services and Justice Grants (OVSJG) mission is to develop, fund, and coordinate programs that improve public safety; enhance the administration of justice; and create systems of care for crime victims, youth, and their families in the District. In order to accomplish its mission, OVSJG coordinates and funds community-based and District agency services for victims of crime and returning citizens. Additionally, OVSJG manages efforts that aim to reduce truancy in the District's public and charter schools, and supports juvenile diversion, mentoring, and gang intervention efforts. OVSJG is the State-Administering Agency (SAA) responsible for the direction of systemic criminal justice planning, coordination, management, research, training, and technical assistance. OVSJG also provides policy making expertise, advice, and counsel to the Executive Office of the Mayor on the role of victims and offenders in the criminal justice system, and evidence-based practices to respond to, intervene in, and prevent violence. OVSJG's priority for juvenile justice programs for FY2012 - 2019 include truancy and delinquency prevention programs funded with Federal and local funds. For more information about OVSJG's grant funded opportunities, refer to the website.¹

In FY19, OVSJG's Request for Applications (RFA) #2019-06 is for programs centered on addressing truancy in elementary and middle schools for the District's most prominent truancy reduction program, Show Up, Stand Out (SUSO).² Eligible applicants must take the lead in monitoring both family and youth engagement models. Moreover, lead organizations may engage youth service providers as subcontractors to provide the youth engagement model. Only qualified non-governmental organizations with prior experience working with DC's child welfare, youth services, family services, mental health, substance abuse, and/or educational agency professionals are eligible and invited to submit an application. This RFA is released exclusively to execute the Show Up, Stand Out mission and program model with local funds to target elementary and middle school students with five to nine unexcused absences and their families in Wards One, Two, Four, Five, Six, Seven, and Eight. For this proposal, applicants may serve students in more than one Ward to meet program capacity for both elementary and middle school models. Qualified applications will be selected for award amount up to \$610,000 each (at least \$100,000 to focus on middle school).³ *Please note that this is a consolidated RFA which requires both the Family Engagement and Youth Engagement components to be implemented by one-lead applicant as a community-based organization. Special consideration will be given to applicants experienced in working with the Show Up, Stand Out model.*

³ Award amounts may vary based on final approved budget.

SUSO Family Program Model

The SUSO Family Program model serves families referred by each partnered elementary school with five to nine unexcused absences prior to the school enforcing the mandate to refer the student to DC Child and Family Services and/or court social services. This model establishes a home visit case management program that is implemented in grades k-5. Case management consists of meeting with the family on at least twice per month to develop, track, and assist with a development plan in removing barriers to attendance.

SUSO Youth Program Model

The SUSO Youth Program model serves students referred by each partnered middle school with five to nine unexcused absences prior to the school enforcing the mandate to refer the student to DC Child and Family Services and/or court social services. This model establishes an in-school club program that engages students during the school day for peer mentoring, tutoring, fitness, and/or personal development in grades 6-8. Youth service providers conduct programming primarily during lunch, however under special circumstances can be conducted after school, to encourage and reestablish student/school connections that increase school attendance.

The Family and Youth Program model will be implemented by a lead organization that will be responsible for building capacity for case management of the Family Program and youth services of the Youth Program. Youth Service provision can be implemented by the lead organization or by sub-contractors.⁴ Successful applicants will be a member of the Show Up, Stand Out Program Advisory committee,⁵ serve as a brand ambassador, and initiate an interagency team of community-based and school-based professionals to address the complex needs of students failing to attend school regularly. This grant supports efforts to increase family-centered involvement with wraparound practices provided by community-based providers and youth engagement through school-based activities.

Eligible organizations should have the capacity to implement:

Family Program Model

1. Conduct community-based home programming that engages⁶ parents at their home, during school, and/or during out-of-school activities based on SUSO program standards throughout the course of the school year, but not at one time.
2. Participate in attendance teams of community-based and school-based professionals to address the complex needs of students failing to attend school regularly.
3. Increase student attendance and engagement at partnered school.

⁴ Special consideration will be given to youth service providers who have previous experience with the Show Up, Stand Out program.

⁵ Committee meets every other month, but may require more regular meetings as necessary.

⁶ Engage consists of a family that has signed consent to participate in the program.

Youth Program Model

1. Conduct school-based youth programming that engages students during school hours (lunch time or free block preference) to effectively address truancy.
2. Participate in attendance teams of community-based and school-based professionals to address the complex needs of students failing to attend school regularly.
3. Increase student attendance and engagement at partnered school.

OVSJG will provide an evaluation mechanism to support process and outcome analysis to inform policy and program development of effective truancy reduction initiatives adaptable for the District of Columbia's school system.

For more information on evidence based practices programs, proven concepts, and resources to help build your application please refer to the appendix section of this RFA.

II. SHOW UP, STAND OUT (SUSO) GRANT PROGRAM

Vision

The District of Columbia values the highest quality education for all students attending District of Columbia Public Schools. *Show Up, Stand Out* strives to ensure that all students in the District of Columbia will have the opportunity to access services and programs that are designed to enhance students learning experience and engage students more holistically in the educational environment.

Purpose

The District of Columbia's Office of Victim Services and Justice Grants (OVSJG) has local funds available for strategies designed to address truancy among students attending DC public and public charter schools. Data-driven and evidence-based practices should be implemented to enhance attendance in Kindergarten through eighth grade and help families and youth, who have five or more unexcused absences, gain access to community-based services.

OVSJG intends to award grants to community-based organizations in the District to provide wraparound services that assist students and their families in addressing the practical, behavioral, financial, and health barriers that prevent them from attending school through execution of the SUSO family and youth program models. The rationale for the focus on truancy reduction is rooted in the ultimate goal to reduce school dropout and other negative student outcomes such as delinquency and economic disadvantage.

OVSJG seeks applicants who have a proven understanding of key indicators to truancy in elementary and middle school, and can demonstrate effective programming within the provided process map and flow framework (Figures 1a., 2a., 2b.).

Program Objective

The program objective is to reduce unexcused absences by mitigating barriers to school attendance of children and their families with five to nine unexcused absences prior to escalation to Child and Family Services Agency (CFSA) and court referral. Community-based organizations are partnered with schools to provide wraparound services that assist children and their families in addressing the practical, behavioral, financial, and health challenges that prevent them from attending school.

Goals

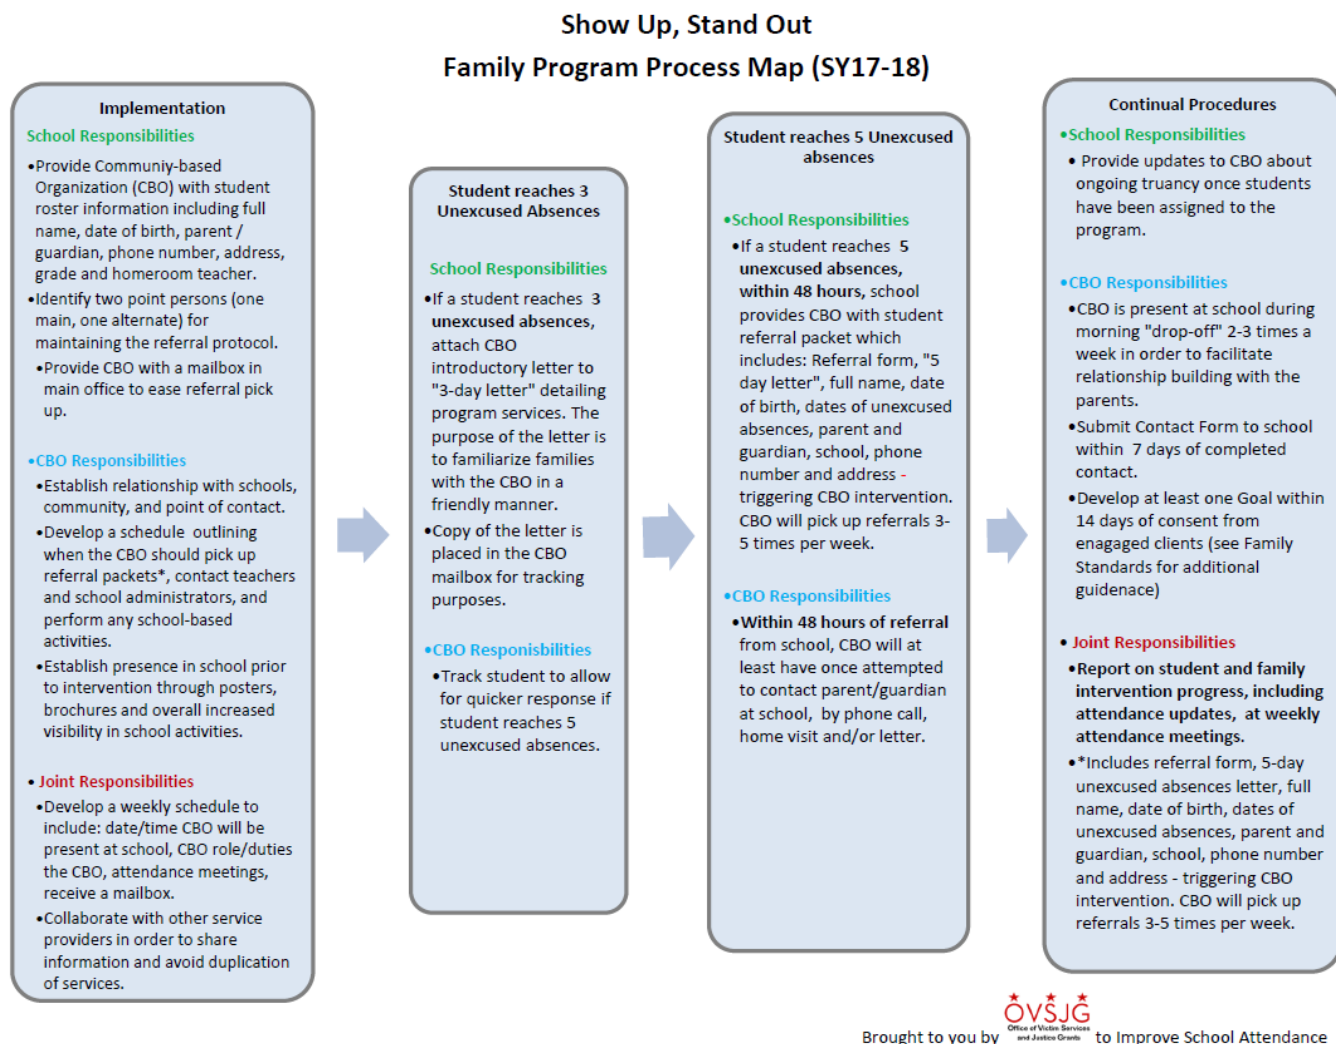

The goals of *Show Up, Stand Out* are to:

- A. Create a culture of educational attainment and youth engagement in the District of Columbia Public and Public Charter Schools so as to prevent unexcused absences and promote regular attendance;
- B. Respond efficiently, and in a student-centered, research-informed manner to students who have been identified by their schools as having five to nine unexcused absences;
- C. Evaluate the efforts of the community-based service providers and youth service providers in accessing the students identified as truant;
- D. Facilitate an electronic database for information-sharing and evaluation purposes between the service providers; and
- E. Make policy recommendations to the District of Columbia Mayor and Council regarding policies and legislation aimed at preventing future truancy.

SUSO Family Program Model: Elementary School Intervention

Show Up, Stand Out is designed to reduce absenteeism by providing support services to identified families while fostering student achievement. Upon reaching five unexcused absences, a student is referred by the school to their partnered Community-based Organizations (CBO) that will work closely with the school's Student Support Team (SST) to identify barriers to attendance. A CBO Family Support Worker (FSW) engage families in their home to identify barriers to school attendance and create a Family Development Plan that will assess the needs of the student and their family. Ongoing communication between the FSW and the SST ensure that the student's needs are being properly addressed. Figure 1a outlines the process and flow of the program.

Figure 1a. Show Up, Stand Out Elementary School Referral Process Map⁷

SUSO Youth Program: Middle School Intervention

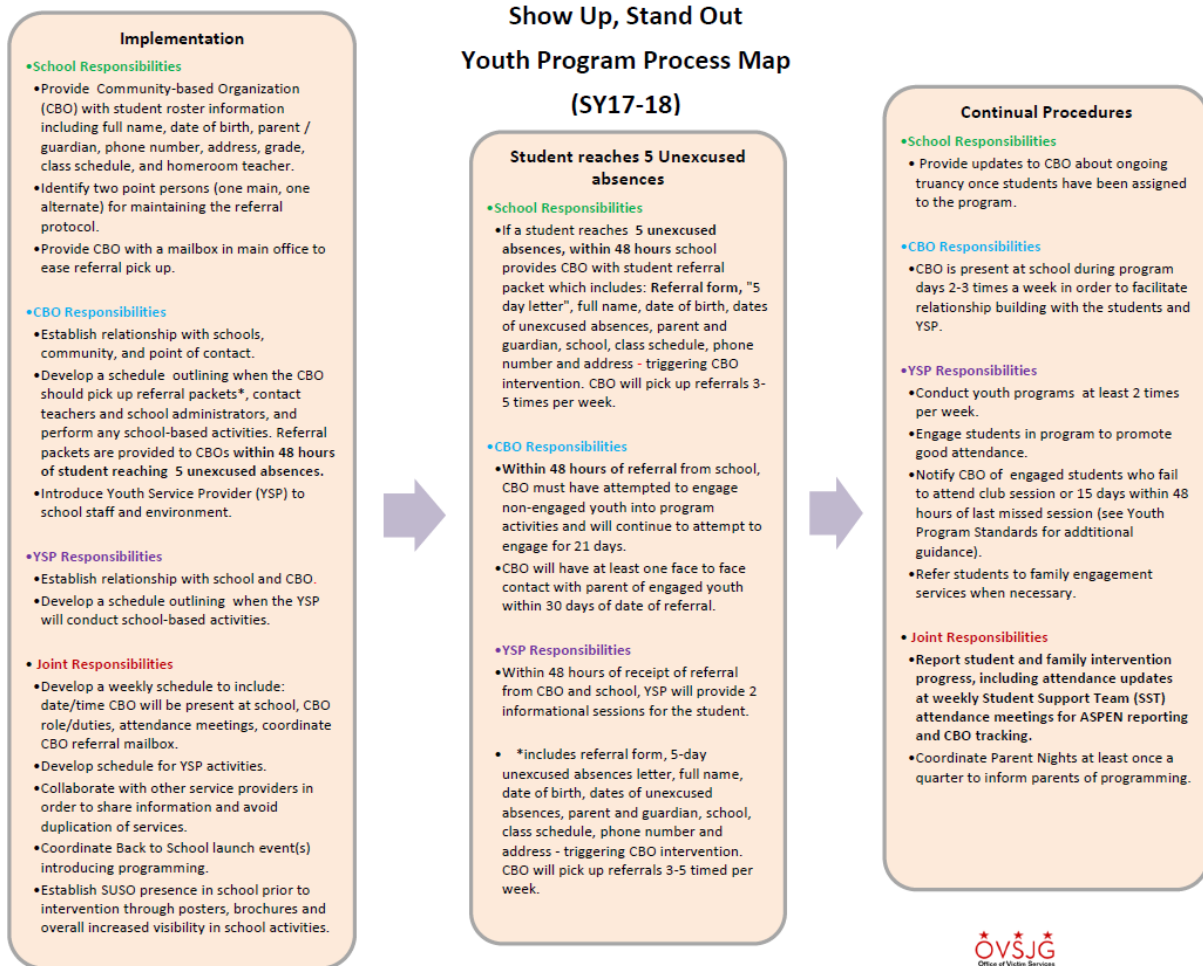

The primary purpose of the Youth Program is to reengage students who have between five to nine unexcused absences and are falling into a pattern of low attendance that may have negative long term consequences for their academic careers. The goal of the middle school youth engagement model is to provide students and schools with access to additional resources that will positively impact student attitudes towards school and the school environment. The middle school program directly engages target students in such activities as tutoring, personal development, mentoring, technology workshops, and fitness clubs (facilitated by Youth Service Providers –YSP in some cases) and provides family support case management services when necessary.

⁷ Process map is updated each year based on best-practices of the prior year

At the middle school level, Show Up, Stand Out is designed to reduce absenteeism by providing support services and fostering student achievement for identified students and, if necessary, their families. Upon reaching five unexcused absences, a student is referred by the school to their partnered CBO who will work closely with the school's SST to identify barriers to attendance. A Youth Coordinator (YC) will connect with the youth and facilitate the navigation of the various school-based club activities. The YC is essential in holding students accountable and in serving as the liaison between the school and the YSP. If the need arises, each middle school student will have access to a CBO Family Support Worker (FSW) and who will conduct home visits to conduct a more in-depth assessment of familial needs, and develop a case management plan. Ongoing communication between the YC, YSP, the SST, and FSW (if applicable) ensures that the student's needs are being properly addressed. Each CBO should have capacity to build a team consisting of YC and YSP to serve each partnered middle school. Figure 2a outlines the process and flow of the middle school program.

Required Performance Measures

For this project to be successfully evaluated, all parties must be engaged in the process and commit to carrying out the evaluation plan as agreed. Each applicant must agree to enter all data into the SUSO Efforts to Outcomes™ (ETO) Enterprise system in accordance with the data collection standards as specified by OVSJG. It may also be necessary for grantees to collect additional data to meet the requirements of this project.

Common data elements will be required from all grantees, and must be provided through the ETO system. ETO is used to collect data at the participant level and to align staff service efforts to participant outcomes. This provides applicants with the tools to measure the progression of a participant or family over time, and assess the impact of each program overall. The customized

ETO Dashboard allows applicants to quickly and easily compare the efforts expended for a given participant, family, or program with the outcomes achieved. The ETO Dashboard and other reporting features allow for quality assurance and real-time data informed adjustments to service delivery to maximize impact and increase the likelihood of success for program participants. OVSJG will provide training and technical assistance to applicants throughout the grant period. In addition, data must be provided at the individual or participant level in order to assess whether or not the program is meeting process standards and implementing the program as intended.

Currently, the ETO system captures the following types of information for each program participant:¹⁰

- Date referred to grantee
- Date of first contact
- Date and time of all contact efforts
- If agreed to participate, date of parental consent

The following data will be reported by aggregating the individual case data the applicant enters into ETO:

School Referrals

- Number of cases referred by school
- Of total referrals, how many were appropriate (fit the criteria)?
- Of appropriate cases, how many cases had an attempted contact within 48 hours of referral?

Applicant Profile/Summary

All applicants must include all information requested in the Applicant Profile. The title of the project should be Show Up, Stand Out. Certified assurances must be signed by the authorized official who is a person who has legal authority to sign on behalf of the applicant. If the applicant is a non-profit organization, the President of the Board of Directors must also sign the applicant profile.

Project Abstract

A project abstract must be included as the first page of the project narrative. It must not exceed 150 words and should briefly describe the following: the project's purpose; the population and number of students to be served; summary of activities that will be implemented to achieve the project's goals and objectives; and description of how progress towards these goals will be measured.

Project Narrative

The project narrative must provide a detailed description of the purpose, goals, objectives, strategies, design, and management of the proposed project. (Not to exceed 30,000 characters) The narrative must contain the following elements:

- A description of the specific proposed activities required by the RFA and how these activities will meet the needs of the targeted population.
- Project/program model and approach, and how this approach is supported by promising research/best practices; **provide in detail how the evidence-based practice will be used**

in executing Show Up, Stand Out programming.

Sustainability Plan

Applicants must submit a sustainability plan that discusses the prospects for continued

¹² A graphic representation that clearly lays out the logical relationships between the problem to be addressed, program activities, outputs, and outcomes.

funding for the project if grant funds are terminated and explain the efforts that have been made to continue the ideas, methods, techniques and operational aspects of the project when the grant funds are concluded. For agencies that received SUSO grant funding during fiscal year 2017, indicate if any new grants have been received from efforts made during that year. This section of the application should indicate planned future sources of funding or proposed strategic planning efforts. If the applicant is requesting partial funding under this RFA to support an existing project, the applicant must state, with specificity, the amount of funding that will be used from other sources, and must identify those sources.

Project Work Plan/Logic Model

This section should list the required outputs and outcome measures as well as any additional outputs and outcomes to be included as part of the project. Please include the logic model explaining the logical relationships between the problem to be addressed, program activities, outputs, and outcomes. Outputs measure the products of a program's implementation or activities. These are generally measured in terms of the volume of work accomplished, such as amount of service delivered, staff hired, systems developed, sessions conducted, materials developed, policies, and/or procedures created. Outcomes measure the benefits or changes for individuals, the criminal or juvenile justice system, or the community as a result of the program. Outcomes may be related to behavior, attitudes, skills, knowledge, values, conditions, or other attributes. The associated charts should also be included in this section.

Process and program standards were developed to maintain uniformity, please consider all standards prior to developing your program and logic model.

Corrective Action Plan

For applicants who received funding in FY18 and are designated as High-Risk, describe progress related to the corrective action plan.

SHOW UP, STAND OUT – PROCESS STANDARDS: FAMILY ENGAGEMENT

The following are the project process standards established with the Community Based grantees of the Office of Victim Services and Justice Grants Show Up, Stand Out Truancy Prevention Project through family engagement. Data to measure these standards will be obtained from the Efforts to Outcomes system. The term “client” refers to youth and their family. Data collection standards are also outlined below.

Program Standards

The CBO will make an attempted contact (by phone or face-to-face) with **100%** of clients within **48** hours of the receipt of referral form.

1. **60%** of clients will have a completed contact (by phone or face-to-face) with those families with current contact information, within **10** days of the date of referral.

2. CBOs will follow the attempted contact steps (in no particular order): 1) Attempt to ccontact at school; 2) phone call to parent/guardian home visit; 3) send letter to home; if returned by post office; 3a) deliver letter to school and notify school office.
3. CBOs will attempt contact by phone, mail, home or school visit for **14** days before closing referral.
4. For **75%** of clients with an initial completed contact, the first home visit will occur within seven days of the date of the completed contact.
5. **100%** of clients engaged into the program will sign the program consent letter during their first face-to-face contact with the client.
6. **100%** of clients will have a completed Contact Log within seven days of initial completed contact;
7. **100%** of clients engaged into the program will have at least two one-on-one face-to-face contacts per month, of which at least **one** is a home visit.
8. **100%** of clients who sign the program consent letter to engage in case management services will complete a Family Basic Needs Assessment within five days of consent and subsequently within **90 days** or at **case closure** (if duration of program is different than 90 days).
9. **100%** of engaged clients will have at least one Goal developed within 14 days of consent to participate in the program.
10. For **100%** of clients engaged into the program, CBOs will complete the SUSO Assessment at least once within the first **30** days of consent to participate in the program.

Data Collection Standards

Data: All of the data collection standards below will be evaluated based on data entered by CBOs into Efforts-to-Outcomes (ETO).

1. All key events of program participation will be tracked for **100%** of *referrals* including date referred, whether it was an appropriate referral (students in the target age range of k-fifth with five to nine absences from school), if client was engaged in the program (and if not, why not -- e.g., refused, unable to contact), date of initial contact, dates of *all* attempted and completed contacts, type of contact (e.g., phone, home or school visit, letter, text, or email), barrier to attendance, and if engaged as a client in the program -- date of discharge and reason for discharge, dates when assessments were completed, and dates of home visits.
2. For **100%** of active cases (defined as families actively engaged in case management services), CBOs will track (and enter into ETO) all case management notes and services/referrals provided by caseworker.
3. CBOs will track attendance of engaged clients in various project related events (e.g., fun or movie night, homework support, celebrations, field trips, in-school parent training/curriculum).

4. For **100%** of clients who do not sign the consent to participate in the program on the first face-to-face contact, the reason will be documented.

SHOW UP, STAND OUT - YOUTH ENGAGEMENT PROTOCOL

The following are the project protocols established with community based grantees and Youth Service Providers of the Office of Victim Services and Justice Grants Truancy Prevention Project through youth engagement with truant students in middle school.

Program and Data Collection Protocol for CBO Youth Coordinator

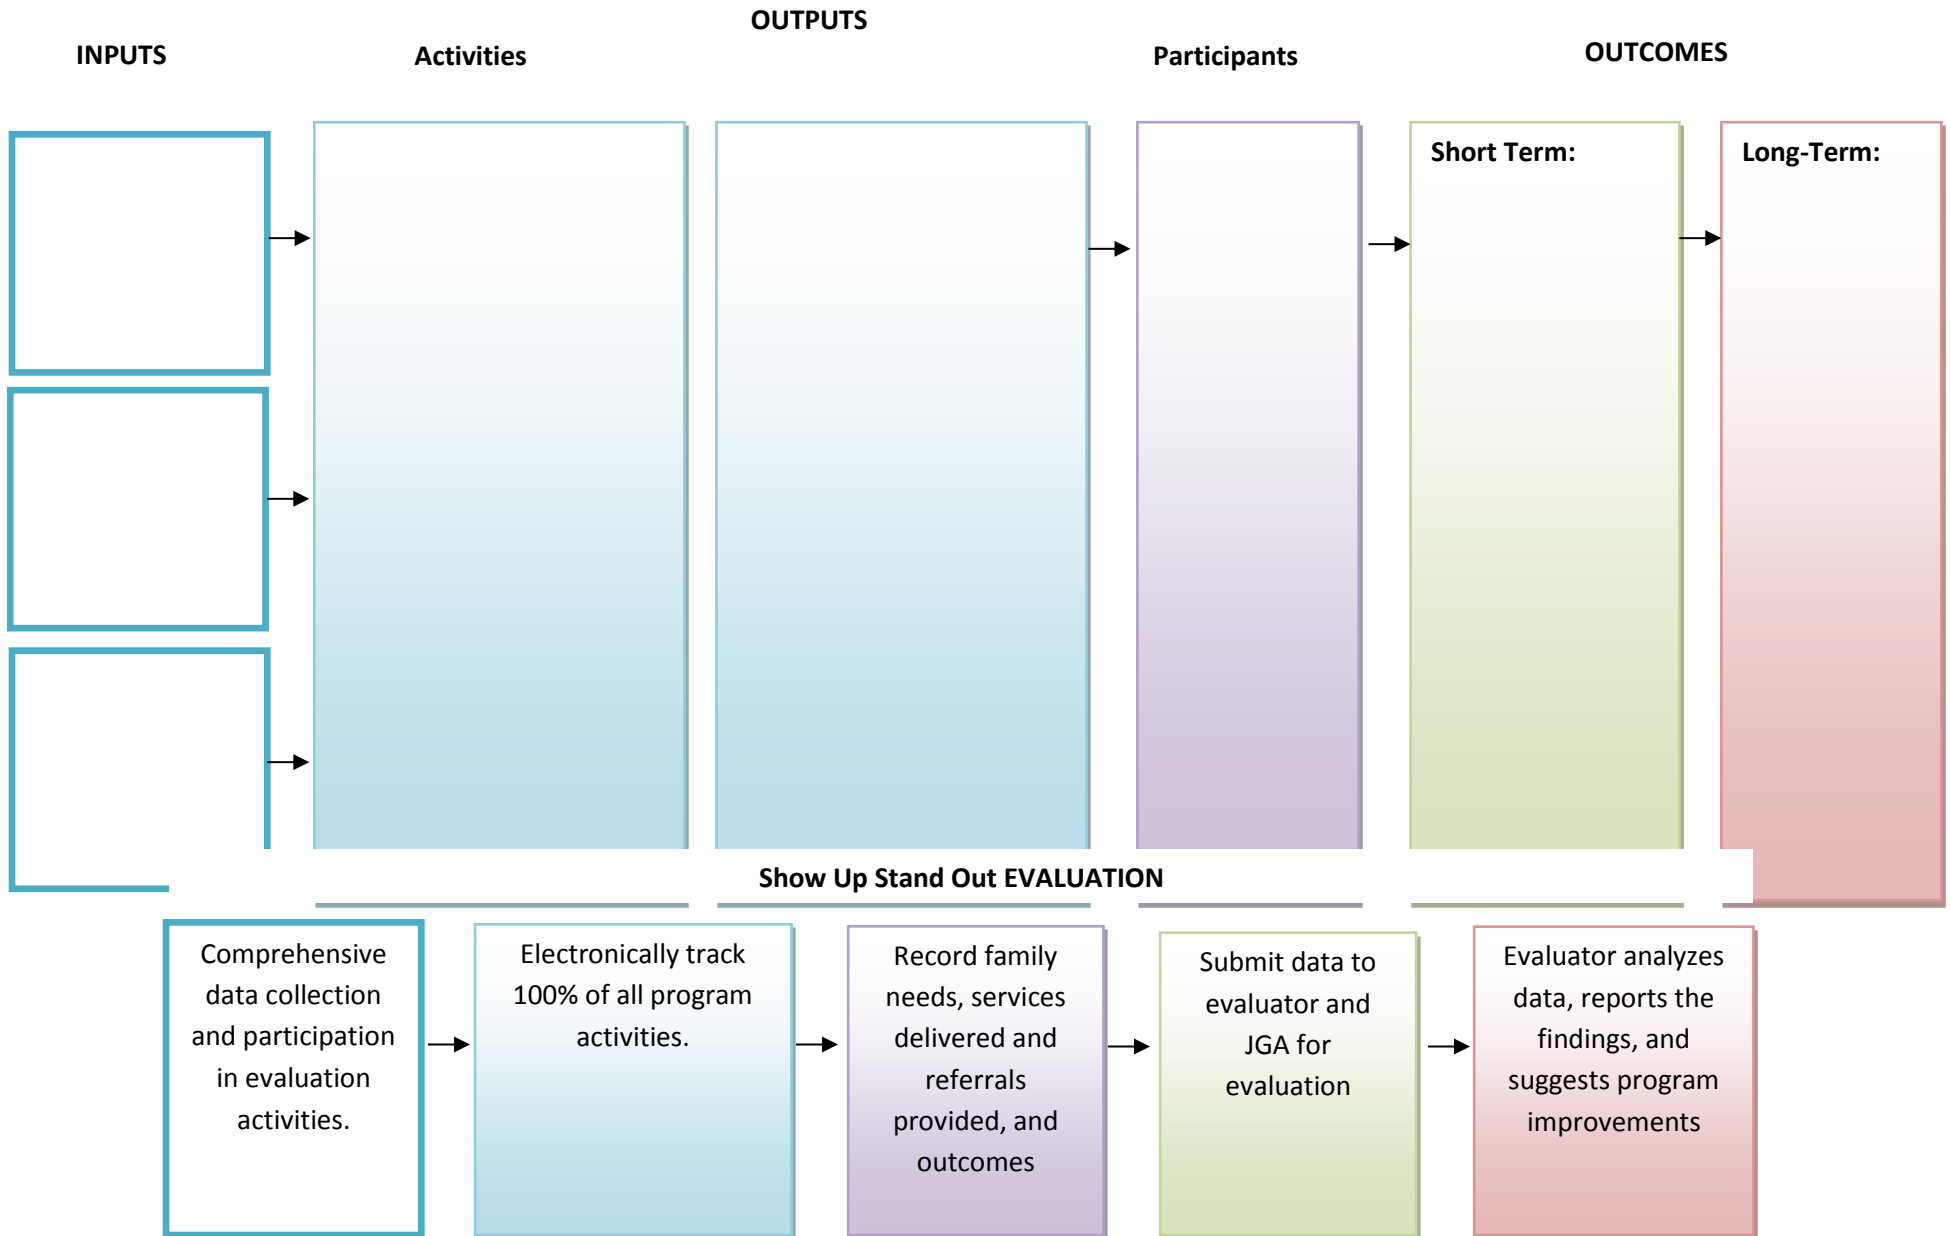

1. Provide each middle school student at each participating middle school the permission slip to pre-enroll the student.
2. The Youth Coordinators will use Efforts to Outcomes (ETO) to track all referred youth from referral to case closure. All data must be entered within **48** hours of occurrence.
3. The Youth Coordinator will attempt contact with youth for participation in youth engagement activities with 100% of youth referred within **48** hours of the receipt date of referral form.
4. The Youth Coordinator will attempt contact non-engaged youth for **21** days before closing referral.
5. Youth will be enrolled into clubs through the Youth Program Tab on ETO within **14** days of the date of first completed contact with the youth.
6. CBOs will follow the attempted contact steps (not limited to and in no particular order) to reach the family to obtain parental consent: 1) attempt to contact at school; 2.) phone call to parent/guardian 3) send letter to home; if returned by post office; 3a) deliver letter to school and notify school office.
7. Youth may attend up to two club sessions prior to receiving parental consent. Thereafter, **100%** of youth who have been enrolled into clubs will have a signed parental consent letter within seven days of the enrollment or from their attendance at their second informational club session. If consent is not provided, the Youth Coordinator will:
 - a. Reach out to the family through a phone call and/or reach out to the youth in the school if the youth is present in school; then disenroll the youth from that club if there has been no successful contact with the family or youth after seven days.
 - b. If the youth has been disenrolled from all clubs and is not engaged into Family Engagement Services, the Youth Coordinator will close the case within **48** hours of disenrollment.

- c. If disenrollment is recommended by the Youth Service Provider for reasons other than the youth not having consent to participate (i.e., the youth has not attended sessions), the Youth Coordinator will determine case closure on a case by case basis.
- 8. The Youth Coordinator will have at least one (1) face-to-face contact with the parent of the engaged youth within **30** days of the date of referral.
- 9. **Engaged youth** will participate in youth engagement activities at least two times per week. If student's schedule does not permit two times per week, adjust accordingly
- 10. If the Youth Service Provider identifies a need for the Family Engagement model, a referral will be made to the Youth Coordinator within **48** hours of identifying that need. Youth who are referred for family engagement to the Youth Coordinator for services may have more than five to nine absences and remain eligible for family engagement services, provided CFSA is not yet working with the youth.
- 11. Within **48** hours of referral to the Youth Coordinator, youth identified as having a need for the Family Engagement model will be engaged by the Youth Coordinator's CBO.
- 12. For 100% of youth engaged in the program, the CBO Youth Coordinator will track (and enter into ETO) all unexcused absences every three weeks.

Program and Data Collection Standards for Youth Coordinators and Youth Service Providers

- 1. 100% of youth enrolled into a club will be logged into ETO by the CBO Youth Coordinator and on to the club roster within **24** hours of engagement into the club. These youth are to be added to the correct Collection (i.e., club roster) on ETO. As the status of youth participation changes during their enrollment, the club roster must be updated.
- 2. For each meeting/activity that the youth attends, the Youth Service Provider is responsible for entering the attendance and session information into ETO within **24** hours for 100% of youth attending their club.
- 3. For 100% of engaged youth who fail to attend the club for **15** days(see 7c of Program and Data Collection Protocol for CBO Youth Coordinator), , the Youth Service Provider will provide the CBO Youth Coordinator with a disenrollment form within 48 hours of the last missed session.
- 4. If the Youth Service Provider identifies a need for the Family Engagement model, a referral will be made to the CBO Youth Coordinator within **48** hours of identifying that need. Youth who are referred for family engagement from the youth coordinator for services may have more than five to nine absences and remain eligible for family engagement services, provided CFSA is not yet working with the youth.

5. OVSJG may conduct pre-award on-site visits to verify information submitted in the application and to determine if proposed facilities are appropriate for the proposed services.
6. OVSJG may require applicants to enter negotiations and submit a price, technical, or other revision of their proposal that may result from negotiations.
7. If there are any conflicts between the terms and conditions of the RFA and any Federal or District law or regulation, or any ambiguity related thereby, then the provisions of the applicable law or regulation shall control and it shall be the responsibility of the applicant to ensure compliance.

The Grant Program Manager will monitor program services and conduct grant administration pursuant to the terms of the grant agreement and will make onsite visits to the grantee's service facilities. Monitoring efforts are designed to determine the grantee's level of compliance with Federal and/or District requirements and identify specifically whether the grantee's operational, financial and management systems and practices are adequate to account for program funds in accordance with Federal and/or District requirements. Failure to be in compliance with requirements may result in payment suspension, payment reduction, or termination of the grant.

Corrective Action and Termination of Funding

In the event the programmatic, financial, or documentation conditions of the grant are not being met in a thorough and timely fashion, progressive actions will be taken, at the discretion of the Office of Victim Services and Justice Grants, up to and including termination of funding. A project which is prematurely terminated will be subject to the same requirements regarding audit, recordkeeping, and submission of reports as a project which runs for the duration of the project period.

High Risk Designation

Pursuant to OVSJG policy, grantees will be designated "high risk" if OVSJG determines that the organization is otherwise responsible but:

- Submitted at least three (3) late or deficient programmatic, fiscal, or data reports over the past fiscal year without advance OVSJG approval; or
- Consistently failed to meet programmatic goal; or
- Been found to have failed to fully account for all the funds disbursed to them.
- Consistently failed to respond to OVSJG requests; or
- Been found, upon review of an application for funding, to not have adequate internal controls; or
- Financial instability; or
- Been classified as "high risk" by the federal government or another District government agency.

If OVSJG determines that an award will be made to a high-risk organization, then funding restrictions may be included. If OVSJG decides to impose any funding restrictions, then OVSJG will notify the organization in writing of the restriction, the reason(s), corrective actions, and process for requesting reconsideration.

Privacy/Confidentiality

Except as otherwise provided by federal law, no recipient of OVSJG funds shall use or reveal any research or statistical information furnished under OVSJG by any person, and identifiable to any specific private person, for any purpose other than the purpose for which such information was obtained in accordance with the OVSJG program funded. Such information, and any copy of such information shall be immune from legal process and shall not, with the consent of the person furnishing such information, be admitted as evidence or used for any purpose in any action, suit, or judicial, legislative, or administrative proceeding.

Client records will be kept confidential and secure in accordance with the District and federal regulations. In accordance with standard practice, only aggregate data and/or individual data that are non-identifiable will be released.

Evidence-based Programs and Proven Concepts

Applicants should clearly identify how evidence-based practices or proven concepts are incorporated in the program design in order to ensure success. All program elements should be backed by research.

OVSJG will give priority consideration to proposals that use evidence-based practices to respond:

- to factors contributing to truancy at an early age (elementary school) specific to the community/neighborhood (risk & protective factors);
- to factors contributing to truancy at an adolescent age (middle school) specific to the community/neighborhood (risk & protective factors);
- with strategies that promote social, emotional, behavioral well-being, and trauma-informed care of targeted children and their families engaged in the grant program;
- with creative opportunities to engage families in identifying barriers and providing sufficient resources; and
- to continuous program improvement through ongoing evaluation and assessments.

Evidence-Based Programs & Literature Search - Chronic Truancy

Chronic youth absences from school are generally recognized to negatively affect school performance, be indicative of school detachment, and to enhance the likelihood a student will drop out completely. The issue of truancy reduction and prevention has thus received a lot of attention as an effort to address one of the issues perceived to be at the root of both poor school performance and juvenile delinquency. Available literature provides insight into both the risk factors involved for truant behavior and the negative effects of prolonged absence and dropping out of school. With the opportunity to prevent these long term negative effects and deter delinquency, the literature supports early interventions—preventing elementary truancy from developing into long term detachment from school (Dembo & Gullledge, 2009; Chang & Jordan, 2011; Lehr et al, 2004). While there appears to be a lack of rigorously evaluated truancy interventions due to limitations (e.g., the lack of a universal definition of truancy and the consequent difficulties in collecting data) (Dembo & Gullledge, 2009; Gandy & Schulz, 2007), some interventions have produced significant reductions in truant behavior thus providing a set of best practices to draw upon.

Best Practices

Truancy interventions should involve multi-modal services at an individualized level.

Demonstrated successes in the literature appear when multiple agencies and providers work together to target the varying factors involved in truant behavior. Youth behavior is influenced by many factors; thus truant behavior could be a result of a student's academic difficulties, a family's financial difficulties, or substance use or abuse by parent or student. Understanding the various potential causes of truant behavior is imperative to determining which services provide the best

opportunity for improving student outcomes; multiple services may be needed (academic tutoring, housing assistance, substance counseling). From this it should also be clear that each student's needs will be different, so interventions must be individualized to each student specifically. An individualized course of action, consistent and persistent involvement with each student and family improve the likelihood of positively impacting behavior. This important aspect of interventions is also one which poses challenges. It may be difficult to maintain such interaction with students and/or parents throughout the course of an intervention due to inconsistent contact information and interest, but parental involvement is crucial. Truant behavior may also be reflective of a lack of attachment to school—on the part of parent and student—so an important aspect of any intervention should focus on changing family attitudes towards school and attendance in order to build a strong attachment and better prepare students for overall success. The earlier this attachment is made stronger, the better, as it allows children to fully enjoy the benefits of their education.

Truancy: Contributing Factors and Negative Outcomes

Students with truant tendencies often face numerous contributing factors ranging across personal, family, and school issues. Literature shows common causes of withdrawal from school to include among others: low self-esteem, substance use or abuse, poor academic performance, poverty, unstable home, poor access to health care and transportation, and poor teacher relationships (National Center for School Engagement, 2007; Dembo & Gulledge, 2009 Baker et al, 2001). Many of these issues prevent children from being able to attend school regularly—through no fault of their own—causing long term negative effects. Given the wide range of contributing factors, truancy interventions should be collaborative efforts that attempt to address as many of the root causes as possible; truancy is not strictly a school or law enforcement problem.

Truancy itself is also considered a contributing factor to further negative outcomes such as delinquency, substance use and abuse, and poor financial outcomes as it is linked to higher likelihood of high school dropout (NCSE, 2007; Baker et al, 2001). A National Center for School Engagement (NCSE, 2007) report describes the relationship between truancy and such negative behaviors as delinquency, substance use and abuse, and high school dropout as “circular” because truancy is both a “ cause and consequence” of these behaviors.

Early Intervention

The potential to prevent not only truancy but further delinquent and negative behavior supports efforts to intervene at the earliest possible stages. Dembo and Gulledge (2009) caution against delaying attention or intervention until after a youth's absence becomes chronic, as at that point additional, more serious problems are likely to have developed. Chang and Jordan (2011) also stress the importance of early interventions as a means to prevent later academic difficulties which lead to increased likelihood a student will dropout. Citing the findings of an Attendance

Works Report,¹³ they state that only 17 percent of kids chronically absent (missing at least 10 percent of school) in kindergarten and first grade were proficient readers by the end of third grade compared to two thirds of their peers with regular attendance (Chang & Jordan, 2011).

“The detrimental path leading to school withdrawal starts early,” Lehr et al (2004, p. 280) also support early interventions based on evidence showing that early home environment and the quality of care-giving are powerful predictors of whether students remain in or drop out of school. Most dropouts exhibit signs of school withdrawal and disengagement including poor attendance and academic or behavioral troubles prior to making the decision to drop out (Lehr et al, 2004). Citing a Barrington and Hendricks retrospective study of early school patterns of dropouts, they state that, “students who dropped out could be differentiated from those who completed school with nearly 70 percent accuracy by third grade” (Lehr, 2004, p. 280).¹⁴ Thus the authors stress the importance of early identification of attendance issues and building student engagement in school so as to prevent the long term negative effects experienced by dropouts—unemployment, underemployment, incarceration, and long term dependency on social services (Lehr et al, 2004).

Truancy: Middle School

Truancy is directly correlated with other school experiences (e.g., poor academic grades, grade retention, and discipline problems) that are all major risk factors for school dropout.

Concentrating on truancy as a means to bolster educational achievement can reduce school dropout and the subsequent consequences involved. Compared to high school graduates, those who drop out of school are 72% more likely to be unemployed, earn approximately \$10,000 less per year, are more likely to receive public assistance, and are more likely to become teenage parents (Sweeten, Bushway, & Paternoster, 2009). These consequences of school dropout increase the risks that those individuals that are disengaged from school will engage in delinquency and criminal behavior (Huizinga & Jakob-Chien, 1998). Effective truancy reduction efforts divert high-risk students away from this disadvantaged life trajectory by intervening early enough to stop many of these negative consequences from coming to fruition.
